

We migrated the site from Magento 1 to Magento 2 with a different look and feel

Osmoseapparaat provides various types of filters like the carbon filter, sediment, Demineralization Di-Filter, Nitrate filter, Silicate filter, and Tds meter. They offer excellent service life and purification and are perfect in such a way that they have an optimum balance between performance, reliability, and costs.

## Planning

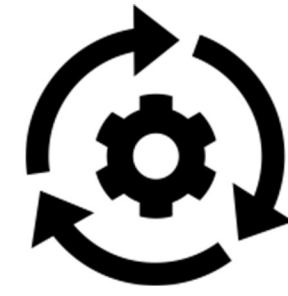

We planned out the complete migration with effective ways to implement it. In the plan all the things were included like flushing out the cache, creating the layout, easy load of CSS site and all the other things.

## Strategy

To provide the latest functionalities of Magento so that the update of the platform turns out to be fruitful. We planned to accelerate the brand's revenue with Magento 2. Store Setup from start to end was planned out for an effective comprehensive update.

## Implementation

- Display replacement filters on product page
- Tax configuration
- Surcharge Integration based on different delivery areas
- Magento 2 AMP pages Integration
- Quick mobile load
- Kiyoh Reviews Integration

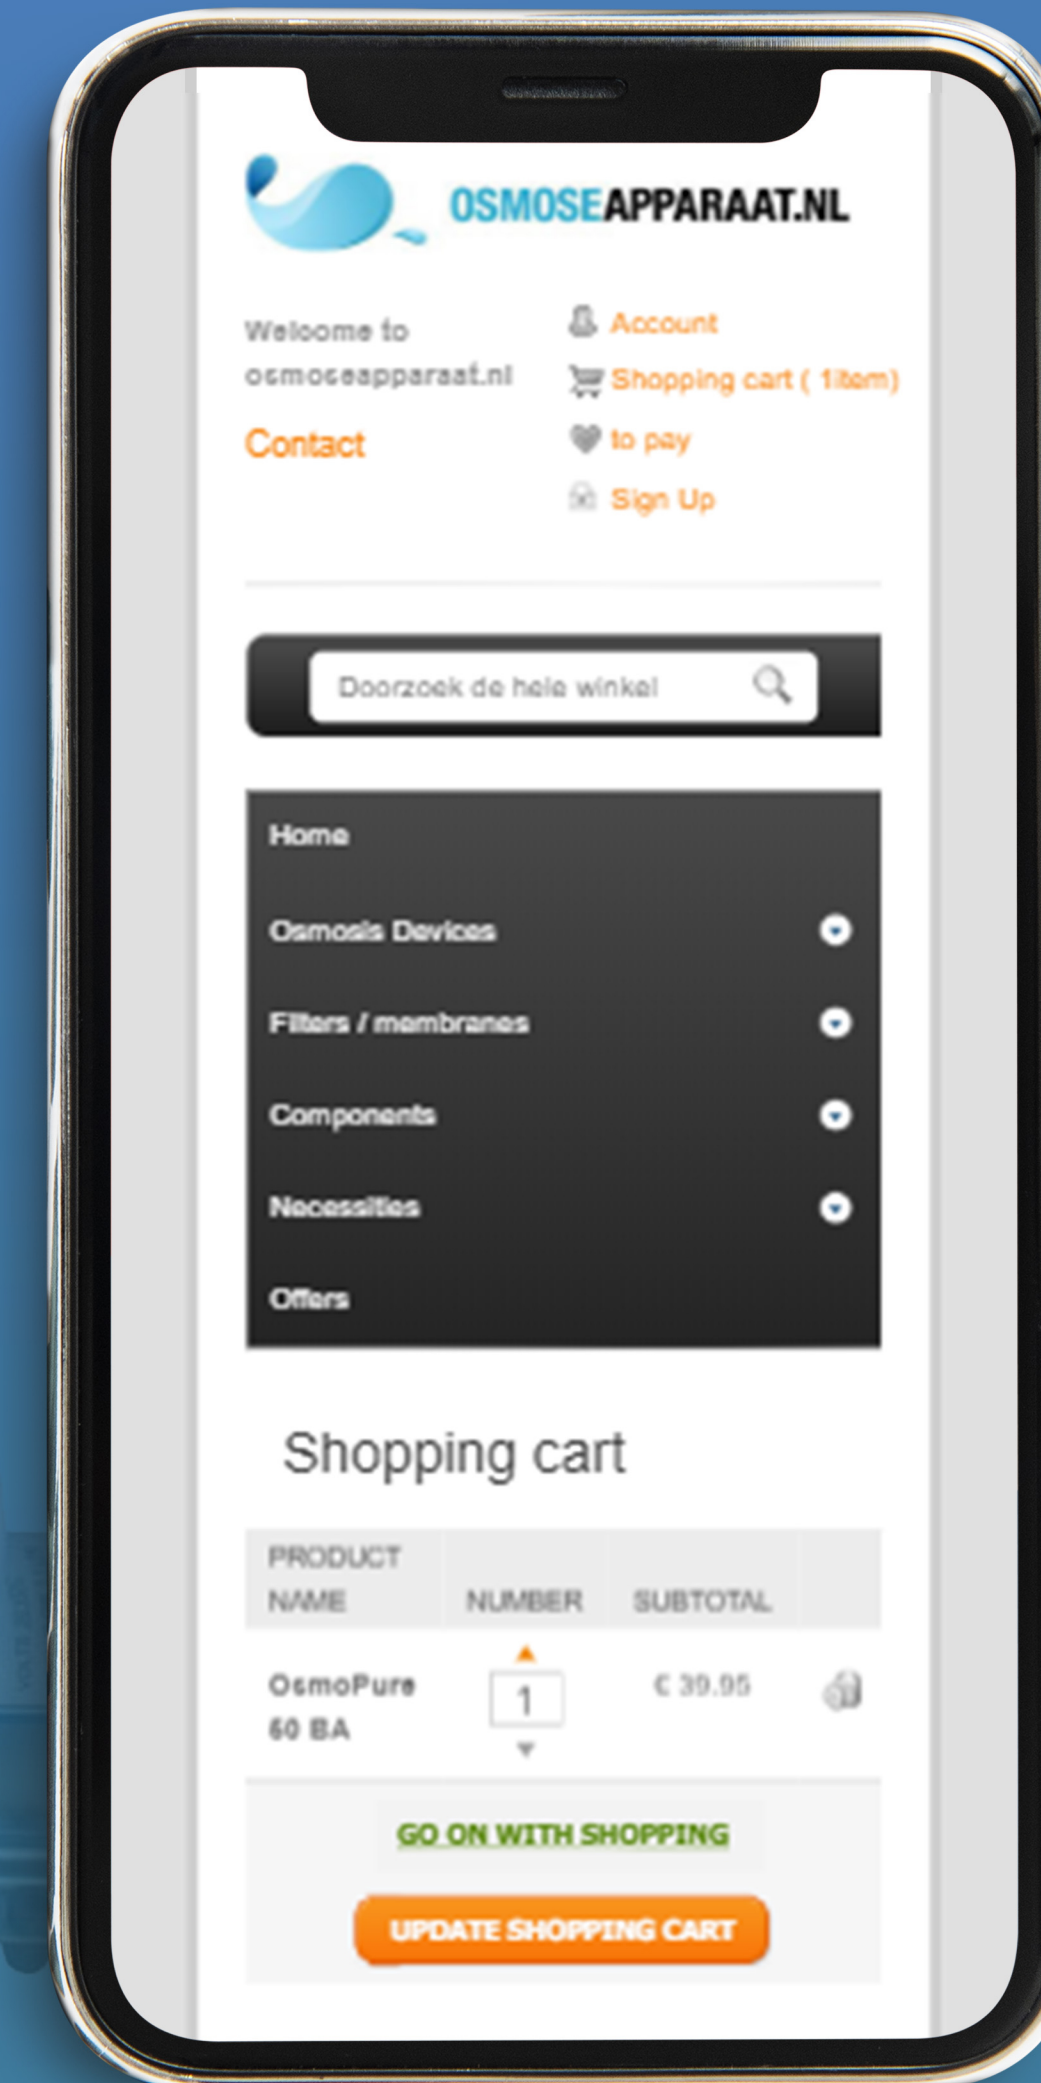

## Results

All the migration of Products, customers, and orders, setup pages were successfully migrated from the old site. The website now is speedy, attractive, SEO friendly and up to date.

# Mobile Responsive

It has a flexible layout for the mobile
